Yes. You can use the diagram below to test your eligibility. Please also read the Tāmaki Makaurau Sector Support Fund guidelines before you begin your application. This includes a description of the types of organisations that are eligible.

#### Definition of **Sport Hub**:

A Sports Hub is a partnership where organisations co-locate or share facilities and/or services strategically, sometimes via an independently governed group, within a defined geographical area, to provide sustainable, quality sport and recreation experiences.

To be an eligible Sports Hub, you must be:

- an established operating sports hub with two or more sports clubs that are affiliated to their relevant Regional Sport Organisation (RSO) or National Sport Organisation (NSO).
- able to demonstrate that there is wider community engagement, availability and use of hub facilities and services to the wider community.
- able to demonstrate that you are delivering initiatives on behalf of members and wider community interests to improve rates of community participation in play, active recreation and sport.

#### What do you mean by active recreation?

Active recreation is the term we use to describe 'generally non-competitive physical activities for the purpose of wellbeing and enjoyment'.

It includes activities that:

- occur in built, landscaped and natural environments (including outdoor recreation, fitness/exercise, community recreation, aquatics, informal activity and play)
- are undertaken both by individuals and by groups
- occur both with and without the active involvement of a 'provider' group or organisation (i.e.

independently)

It is likely undertaken as 'informal activity' with people choosing to be active when they want, with whom they want, and at a time and for a duration that best suits them.

Tū Manawa Active Aotearoa provides funding for quality play, active recreation and sport experiences for children and young people. It has been established drawing on insights from a number of sources, including the KiwiSport Review, the impact of Covid-19 on specific groups and the management of other funds. #### **Will our application be considered if we have cash reserves?**

It is good financial management to hold cash reserves to cover costs in case of unexpected events. You may also be saving for a significant capital outlay, such as new building work or major repairs.

You are required to provide information about cash reserves and savings in the application. This will be considered when assessing your financial hardship. Please refer to the guidelines for more information.

#### **How do I determine cash reserves?**

**Cash reserves** are defined as cash and cash equivalents that an organisation can use for operational purposes.

Examples of tagged reserves include:

- Membership subscriptions received for the upcoming season
- Wage subsidy received for wages that are yet to be paid
- Commitments agreed at a board or committee meeting

### **Can any member of the organisation submit the application?**

You must only submit **one** application per organisation.

### **Do we need to provide evidence of the bills we've paid with money received from the fund?**

Active will undertake random checks by contacting successful applicants later in the year to ask for evidence of how the money was used. You do not need to send evidence unless requested.

### **Will others know how much we receive from the fund?**

**Yes.** Active and Sport NZ will publish information about all successful applicants on our website (applicant name and the amount awarded).

### **Why is the rest of the country not receiving any support?**

Auckland has obviously experienced an extended period at Alert Levels 4 and 3, and this has had a particularly strong impact on the region's sport and recreation sector. Sport NZ has monitored the impact of the Delta Outbreak on all regions through the network of regional sports trusts, and we believe focusing support on Auckland is the most appropriate response. We also know from our research that the effects of Alert Levels 4 and 3 are more profound than lower alert levels.

### **Last year was a bad year due to Covid, however, I have not lost more than 15% of our full-years income, am I still eligible to apply?**

Possibly, if your lost income from this period at Alert 4 and 3 is more the 15% of you lost income from the 2019 financial year, and you meet the other requirements found in the Guidelines you are eligible to apply.

### **Can I apply for lost revenue?**

No, having lost income is an indicator of hardship but the fund does not cover lost income. You may have eligible costs that you can claim to offset lost income. Please check the Guidelines for details on what the fund covers.
